Cat parenting is a serious and long term responsibility. Cats have an average lifespan of 10-18 years and some live much longer than that. The policy of GSR is to ensure that each person who adopts a cat not only be aware of the commitment but that each be capable of and willing to accept that responsibility- morally, physically and financially. It is quite true that not every person who desires a cat should have one. The adoption fee for one cat is \$125.

If you adopt two cats the fee is \$175, as two cats are more fun than one. The fee is to cover the cost of the visit(s) to the vets, tests, vaccinations, and spaying/neutering plus food and litter, etc..

If for any reason, the adoption does not work out, we will take the cat(s) back, no questions asked.

If we learn of mistreatment or neglect, we have the right to come and retrieve the cat(s) from you at your expense.

We apologize for the intensity of the questions,
but it is for the safety and protection of our homeless four-legged friends.
